Construction Notification #34

Banner Sign Installation

November 2012

The Oakland Airport Connector (OAC) project is under construction along Hegenberger Road between San Leandro Street and Airport Access Road/Pardee Drive. In 2011 the project moved several City of Oakland banner signs from the median of Hegenberger Road to construct the system's foundation and guideway. This fall the banner signs will be installed in new locations nearby (see the exhibit on the back of this page).

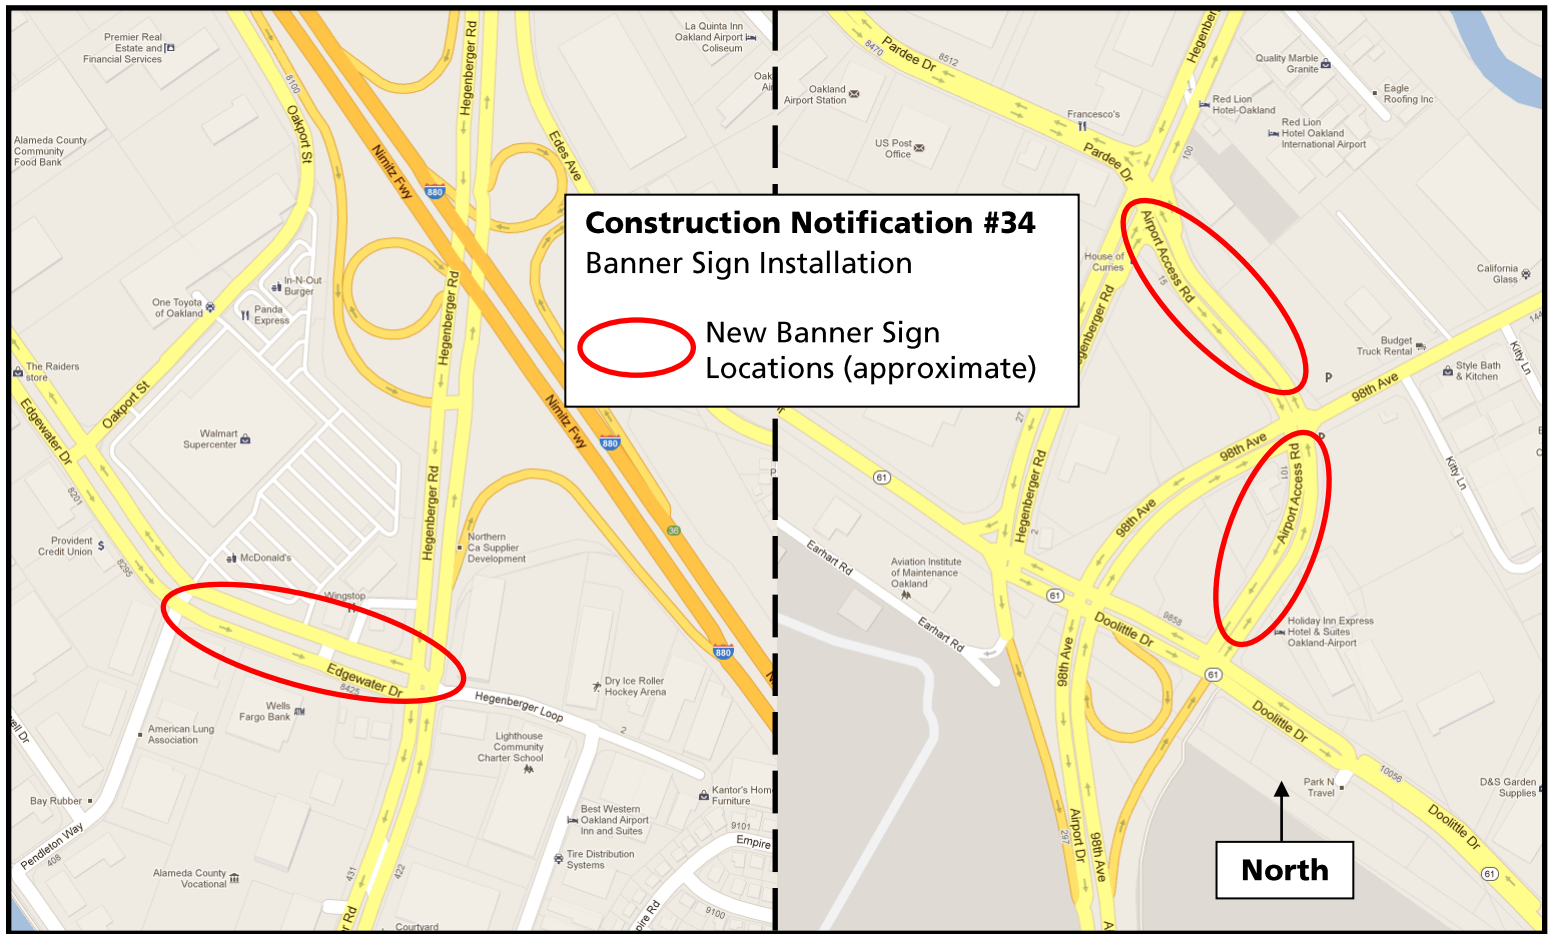

The public should be aware of the following construction impacts:

- Temporary lane reconfigurations, lane closures and shifting of traffic
- Large equipment and materials in view
- Construction-related noise

Noise, dust and vibration levels will be monitored and all efforts will be taken to minimize these and other disruptions to the community.

Stormwater pollution prevention plans are also in place to mitigate the project's environmental impacts. Please watch for notices regarding future construction activities and signs with safety information.

We appreciate your patience and cooperation during this work.
